

LIN-X SPACE SAVING INNOVATIVE MOTION FOR CABINET DOORS

- Unique lateral opening door motion, doors open out and to the side
- Space saving design - opens in half the space compared to swing doors
- Helpful for wheelchair users
- Suitable for doors from 400mm to 1100mm
- Attaches using standard concealed hinge mounting plates
- Fitting is snap-on easy
- No ugly rails or tracks, inside of cupboard is left clear

**SUGATSUNE**

Japanese manufacturer of
LAMP and **Zwei L**
branded products

LIN-X 450

- Door widths from 400mm - 500mm
- Height from 901mm - 2400mm
- Optional soft-close damper
- For doors weighing up to 17kgs

LIN-X 600

- Door widths from 550mm - 650mm
- Maximum height 2400mm
- Soft-close damper
- For doors weighing up to 24kgs

LIN-X 1000

- Door widths from 750mm - 1100mm
- Maximum height 2980mm
- Optional soft-close damper
- For doors weighing up to 90kgs

The LIN-X is ideal for confined spaces. The mechanism opens in half the space required for a conventional swing door. For outside corners and tricky inside blind corners it's a practical and stylish solution. Double doors open away from each other leaving unobstructed access to the interior
